BBM,B.Com,B.Com(CA,CS,E-Commerce,AM) Pass out in the Year 2012**

On 22nd December 2011

About the Company:

IT-Infrastructure Services

Rein in spiraling infrastructure costs and meet ever-changing business demands with Keane’s Data Center and Cloud-based Infrastructure Services. Our solutions enable you to select a combination of options that fits your business requirements including and Cloud-based Solutions, Remote Infrastructure Management, IT Operations Excellence, 24x7 Service Desk Operations, and Data Center Services.

IT-Infrastructure service Operations:

Cloud-based Solutions help you leverage the power and potential of cloud computing to dramatically lower expenses associated with building, maintaining, and operating a data center, especially power and cooling related costs. It also enables you to transform what is typically a major capital investment into an operating expenditure.

IT Operations Excellence combines CMMI, ITIL, Lean, and Six Sigma into daily operations to increase both performance and quality while driving sustainable improvement of your IT infrastructure operations.
